This Starter Kit will aid the following business types: Food Retail Establishments (i.e. grocery store) and Food Establishments (i.e. restaurants). This kit should serve as a general guideline to opening these specific types of business.

STEPS TO HELP ATLANTA-PRENEURS GET STARTED IN THE FOOD ESTABLISHMENT BUSINESS:

Step 1: Register with the Georgia Corporations Division

eCorps.sos.ga.gov → Online Services → Create a User Account

The first step in creating a business is registering with the Georgia Corporations Division. Business corporations, nonprofit corporations, professional corporations, limited partnerships (LP), and limited liability companies (LLC), are formed in Georgia by [filing with the Corporations Division of the Office of Secretary of State](#). In some instances, the above entities that form in other states choose to file with the Georgia Secretary of State as “foreign” entities. Once you register your business, you will receive a Secretary of State Control Number needed to complete **Step 2. To see the cost of incorporating, please see the [filing fee guide](#).**

For help choosing how to incorporate your business, review the [Which Legal Entity Is Right For Your Business](#) guide. You may also want to review [Georgia's First Stop Business Guide](#). If you need any additional information, contact:

**Georgia Secretary of State Corporations
Division**

You can apply for an EIN number online by visiting <https://www.IRS.gov> → File → Businesses and Self-Employed → Business Topics → Employer ID numbers.

Obtain a State Tax ID and Sales and Use Tax number: A Georgia state tax ID and a sales and use tax number can be obtained at the same time by visiting: <https://gtc.dor.ga.gov> → Register a New Georgia Business. After your online submission, you should receive your specific tax account numbers within 15 minutes by email.

Step 7: Obtain Your Vending Permit (Business Dependent)

If your business is outdoors and/or portable like a food truck or a kiosk, then you will need a vending permit. There are two types of vending permits and each is controlled by a different regulatory agency. To determine which is the right fit for you, please read below:

1. [Private property vending permit](#) - The City of Atlanta Police Department License and Permit Unit regulates vending on private property and flea markets. For the [application](#) process and required documents, visit www.atlantapd.org → **business** → **vending permits -public property**. Please note that all food sales require that you obtain a Health Permit from your county office before you apply for a vending permit. See [Step 2](#) above.
2. [Public right of way vending permits](#) - The City of Atlanta Public Vending Program offers designated locations for vending on City property. The application process is dependent of the type of vending you are interested in. For more information on all public right of way vending permits, visit www.atlantaga.gov/vending or email question to vending@atlantaga.gov. All of the programs below are regulated by City Planning.
 - [Carts & Kiosks](#) - The City of Atlanta provides vending opportunities in the public right-of-way from 18 City-owned kiosks and at 29 designated cart locations on City sidewalks, plazas and parks all within Downtown Atlanta. Carts must be non-motorized, must be removed when not in operation and must be approved as meeting the City's design specifications. All available locations are offered through yearly lotteries that take place around early March.

- [Food Trucks](#) - The Right of Way Food Truck Vending Program allows food trucks to vend in designated vending zones within City streets. Central Atlanta Progress also coordinates a Food Truck Friday event on Fridays from May to September.
- [Motor Vehicles](#) (i.e. Ice Cream Trucks, Rolling Stores) - The City allows vendors to sell ice cream or other prepackaged food and/or non-alcoholic prepackaged beverages out of motor vehicles without stopping or standing to do business for more than 30 minutes. These vendors must follow specific operational guidelines regarding location and sound equipment as listed in the application packet. Motor Vehicle Vendors are not restricted to a specific operational area and are not a part of the lottery selection process.

Additional Resources:

Waste Disposal Services

The City of Atlanta does not provide ongoing waste services for individual businesses. Businesses needing long term waste disposal services will have to contact a private resource.

Please note that dumpsters and other large waste containers must meet specific storage location and distance requirements to prevent rodent, insect, or other kind of infestation. Failure to do so will result in a citation.

American with Disabilities Act ADA

The (ADA) is a federal civil rights law that prohibits discrimination against people with disabilities in everyday activities, such as buying an item at the store, going to the movies, or enjoying a meal at a local restaurant. Businesses that serve the public must modify policies and practices that discriminate against people with disabilities; comply with accessible design standards when constructing or

altering facilities; remove barriers in existing facilities where readily achievable; and provide auxiliary aids and services when needed to ensure effective communication with people who have hearing, vision, or speech impairments.
